

Sage FAS Barcode Reader: Symbol® PPT 8846 Bronze Extended Warranty

The Symbol **Service from the Start – Bronze with Comprehensive Coverage*** is a unique prepaid Service Center Support program that extends normal wear and tear coverage by including accidental breakage during normal use of your Symbol PPT 8846. Purchased within 30 days of your Symbol hardware, this three-year service agreement can significantly reduce your unexpected repair charges — helping to ensure both peace of mind and investment protection.

Service from the Start – Bronze with Comprehensive Coverage provides for product repair at a Symbol-operated facility that employs the same test equipment and fixtures used in the manufacturing of the equipment. Products are diagnosed and restored to factory specifications via:

- Repairs, alignments, adjustments and restorations, if appropriate, of any covered product(s) that malfunctions while being used within the operational and environmental parameters specified by Symbol.
- Product updates, if applicable, as may be defined periodically by a Symbol Engineering Change Order.

COVERAGE: STANDARD WARRANTY vs. SERVICE FROM THE START BRONZE + COMPREHENSIVE*
